Love the game but wish achievements worked.. Terrible graphics, I couldn't get them to work at all. Got stuck on just a black screen.. A rather nice add-on and the current price is fair at \$7.99 but most sales drop it by 40-50% off. If you own the Rail Tours version then there's very little to add as both are the same except with a different livery and one having coaches and the other having freight wagons. Included scenarios are standard only but also make use of the procedure required for starting trains on upward grades and some shunting. Default sounds are nice and the throttle/brakes require a few seconds to respond to changes but also included are startup and shut down procedures for those that want a little extra.

Well worth it and for those that are interested in getting more out of this loco there is a sound pack available from Armstrong Powerhouse.. best game ever no question asked

. Quite a fun noir game, I enjoyed the story and game progress. Although a bit old school, that is what I enjoyed about it the most. Lots of old style puzzles to solve and concepts to figure out in order to proceed.

Recommended for old school puzzle & adventure lovers.. A cell shaded action shooter where you can choose your style of music. Took me less than two hours to finish. For 6 bucks it's an easy thumbs up for me.

Funny. Good game :). This game is NOT worth it. Its a very cruddy game and is NOT worth the amount of money you should pay. I wouldn't download this even if it was free.. C

P. love this game! it would be awesome if there would be an air assault team that could land on top of a building and begin attack or at a destination you could call in a team and have a helicopter hover over the ground while the unit rappels down the rope. if it could do that over the building it would be pretty cool as well as in an area that could be cleared.. Game seemd easy, casual graphics, reminds me about FEZ. But on the second island... oh deer - it's very difficult. The controls could be more responsive. Checkpoints would be nice. Also, in my opinion it needs some polish, some additional testing. But it's cool.. I've been playing the multiplayer with my SO and getting the perfect abduction achievement. If you want to test a relationship or your communication, THIS is definitely a good way to do it!! This game as a really bad issue with steam vr, it's the third time i try to play a level and it wont sto making steam vr crash, it has done it around a dozen times already. please fix the issue. Very good FPS game to play online

https://www.youtube.com/watch?v=uexbAa_zXGs. good to play like maybe once through like every other year or so i guess certainly not enough variety for more than that. I love this game. It doesn't blow your mind, but it's a nice relaxing experience.
